# Wonderland

Wonderland is founded precisely according to the conditions of the Montevideo Convention (1933), which defines in article 1 a state as a person in international law if it meets the following criteria:

- 1) a defined territory
- 2) a permanent population
- 3) a government
- 4) an ability to establish relations with other states.

Despite the content of article 3 (“the political existence of the state is independent of recognition by the other states.”), is reaching out to all states in the World for any kind of relationship.

The **Republic of Ivory Coast** is the first country maintaining a diplomatic relationship with Wonderland.

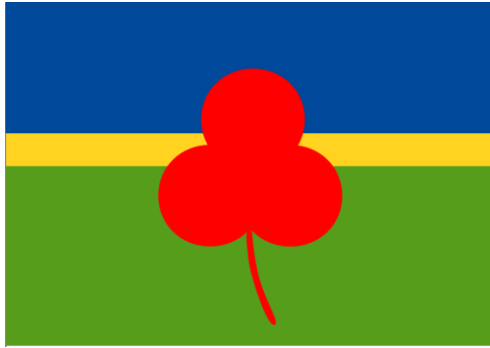

*Ambassador, Luca: van Dinter*

# Wonderland

## Government

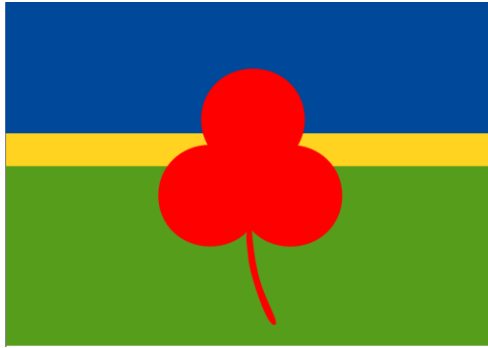

Converts the decisions of the people into policy and directs the ministries to implement them. It also maintains contacts with the outside world and submits decisions to be taken to the people.

- \*) Marjan: Boone
- \*) Tanja: de Bruine
- \*) Luca: van Dinter
- \*) Lucie: Schouten

“Ministeries” (working groups) carry out the tasks of the parliament in practice and feed the results back to the people via the parliament.

The number of groups grows according to the need. Currently these are:

- \*) Education
- \*) Foreign affairs

Quote from the Constitution

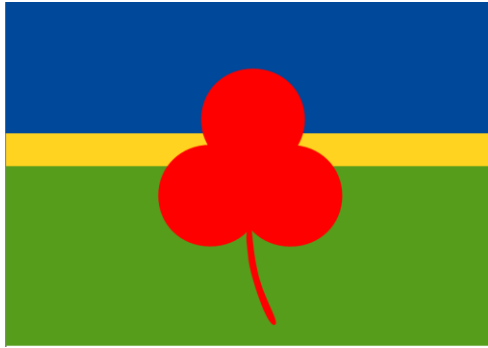

*“Constitution of the freeman of Wonderland”*

*All men are connected with each other in Freedom and Love*

*I AM and DO from my Eternal Essence, coming from Source, knowingly and willingly BEing part of All-That-Is (the worlds of men, animals, plants and minerals) in full consciousness that I AM, just like they ARE, an inseparable part of Creation.*

*I AM conscious of the fact that my BEing and DOing affects ALL-That-Is. For these affects I AM fully responsible.’*

Most importantly, this constitution belongs to the people **of** Wonderland and not **for** the people. Those words underline the hierarchy chosen for Wonderland.

## Education

Our children are our most precious asset!!!

That's why we in Wonderland attach the utmost importance to high-quality education.

Thanks to the presence of the Earth Experience School (<https://earthexperienceschool.podia.com/>), we can provide this to a large extent.
